

GRIZZLY FLAT COMMUNITY SERVICES DISTRICT WATER NETWORK

Caldor Fire - Non Potable Water Restored to Areas in Blue

- 1** Replacement pipe and fittings on order after leak appeared due to fatigued PVC piping from fire.
- 2** Leak detected soon after opening. 2 inch pipe at first lateral near top of road. Should be able to repair this week and try restoring again. May be other leaks due to heavy equipment
- 3** PG&E repairing water main after drilling through it where the line was outside the paved area in a location for a new power pole. Repair should be completed this week.

- Areas restored in pressure zone with limited pressure provided by gravity head pressure. Approximate time frame to normal pressure, 3 weeks.
- Areas to be restored when booster pumps are operational. Approximate time frame 3 weeks.
