UNSAFE WATER ALERT

**Grizzly Flats Community Services District
water is possibly contaminated
with an unknown substance**

DO NOT DRINK YOUR WATER

Failure to follow this advisory could result in illness.

An unknown substance may have been added to the drinking water supplied by the Grizzly Flat Community Services District due to the Caldor fire. The State Water Resources Control Board, El Dorado County Environmental Management Department, and Grizzly Flat Community Services District Water System are advising residents of Grizzly Flats to NOT USE THE TAP WATER FOR DRINKING AND COOKING UNTIL FURTHER NOTICE.

What should I do?

- **DO NOT DRINK YOUR TAP WATER---USE ONLY BOTTLED WATER.** Bottled water should be used for all drinking (including baby formula and juice), brushing teeth, washing dishes, making ice and food preparation **until further notice**.
- **DO NOT TRY AND TREAT THE WATER YOURSELF.** Boiling, freezing, filtering, adding chlorine or other disinfectants, or letting water stand *will not* make the water safe.

The Grizzly Flats Community Services District is planning to provide an emergency supply of bottled water for residents starting later this week. For more details regarding bottled water availability (when and where), visit the District's website (www.grizzlyflatscsd.com).

We will inform you when tests show that the water is safe to drink again. Residents should expect intermittent interruptions to their water service as we continue with repairs to the water system from fire damage.

For more information call:

Water Utility contact: Grizzly Flats Emergency Hotline, (530) 497-4666

State Water Resources Control Board at: Sacramento District, Ali Rezvani, (916) 445-5264

Local County Health Department: Bryan Vyverberg, (530) 621-5300
